Here's my theory. The CCP is acting alone. They are doing exactly what they want, maybe even thinking they are outplaying the Jew.
If we all have learned anything, Jews war-game and are quite good at adapting at the drop of a penny.
They aren't working together, the Jew is just allowing them to do what they want up until their actions directly interfere with their formation of their NWO.
>China wants to fuck up North America, AND we get a slice of the cake? Fine.
They can pass the blame to the CCP, keep their hands out of it, all while creating a weakened USA that will eventually beg for foreign / "united" help to get out of the mess.
>Problem. Reaction. Solution.
The Jews get a win-win because no matter what, they wont be the bad guys and can offer a "solution".
Hasn't this kind of thing happened a million times?
>oldfag lurkers welcome.

CCP is just the boogeyman for Qniggers and Trumpanzees. Their country is slowly falling apart and in a terrible geographic location to be a threat to the US. I guess I am agreeing with you. I don't forsee US conflict with China unless they step on Jewish toes and the American golem needs to step in.

China already controls large parts of the UN, the only reason you're seeing pushback now is because the CCP threatened to punish George Soros due to him objecting to the Hong Kong takeover and this an investment opportunity/safezone for him. One of the few countries capable of killing billionaires and getting away with it, threatened to kill one of the top Jewish billionaires.

this, for the CCP to win they just need to stay out of military conflict. They'll win through economic victory as long as they depend on their silk road and new Asian trade agreement along with their new digital currency. They may not need to have to depend on US fiat anymore due to the new trade deal but they need to survive long enough to make it happen and formalize/normalize the Yen or their new digital currency as a trading medium to protect themselves from US pushback.
Great to see the Chinese banks fighting the Jewish banks though, along with the Chinese version of the WTO competing with the international WTO.

I agree with the boogeyman theory as there is always a boogeyman. However I'd like to measure how probable it is that the Chinese are indeed acting "alone". I'm sure they're are dealings between Chinese and Jews, but at the 1000ft view, I have no reason to assume that they are tightly coordinated.
If someone is ignorantly acting on behalf of your interests while they act on behalf of their interests, why interfere?

ooooof, that's the big question, you know first of all, the Jews are factionized and already divided, you saw this in the tribes of Israel, the sons in the tale of Joseph, the Sadducees, Essenes, and the Pharisees, now with the Reformed, Conservative, and Orthodox. The CCP on the other hand is centralized, with the exception of X nigga wants to do this with a large backing and Y frog (he's actually called the frog) wants to do this with a large backing. In the beginning the two (at least certain Jews as you remember the Vice Chairman of Goldman Sachs helped the CCP with their financials in the 1970s), but the question is now will the Jews as a whole or a large segment of them turn to oppose China and not fall to their factionalism like the Zealots and all of the other groups at the Siege of Jerusalem. Now keep in mind, China just allowed Goldman Sachs to buy 100% of its company this year in the past month, but on the other hand China is moving back to Centralization in order to keep its billionaires in check that helped bring China onto the map.

Our economy may be worth close to nothing, but our debt, resources, consumerism, military, etc have to be worth something.

In regards to Xi's investments and the Western world's response, the die has been cast, but it has not landed yet. You have to keep in mind the Great Reset. The Great Reset adds in the factor of the following: less likely: does the societal elite grab controlled and turn it against the Jews (which is the design but it is of course as any centrally planned plutocratic design shitty and thus fall into chaos and feudalism and thus be mopped up by the Jews, or more even if they do manage to stay together in some jambled mess like from the Socialist Republics to the Soviet Union's bolsheviks do they even oppose the CC- look you see here that the die has been cast, and this is like trying to predict what happens in the Russian Revolution before it has even began or about to start.

Well, don't leave it to the Jews to manage anything correctly even if it is valuable to them, remember the Jewish plans or at least the Jewish ambitions always fail, they always failed in the past, whenever they try to make a plot. You have to remember, the Jews, like society as a whole or a bunch of independent decisions happening at once, the Jews, one of them makes a decision or a good decision that ends up with the other Jews deciding to make that decision. The only real way they the Jews can make any real large decisions is by creating an artificial incentive for them and other Jews and goyim to make a profit in which can't be really done since changing a large part of the system or any attempt will be met by another Jew as you trying to interrupt their competitiveness or competition such as a Jew that has investments in China. It's a tyranny of the status quo anon. The Jews are independent and it just so happens that the Jews pursuing their interest occassionally they have equal interests such as after WWII them realizing "oh we can't be safe and around near Europeans even though we've been here centuries/millenia{in southern Europe] so we have to make Israel." or with the holobunga inflation in order to gain victim status and pitty to the Christians. I'm not real sure the Jews will be able to adapt and face China since some have interest in China.

yes but, George Soros is probably, you notice the media is divided, with the Hong Kong reporting but the pro-Chinese shit as well, the societal elite is divided between the two, the question is seeing whether the Jews have consolidated against the Chinese or not, because remember Soros by himself along wit- well I'm not too experienced wit what other Jews may be contributing or not yet, since you do have Fox News that is Jewish owned
Well, what I have noticed that the Jewish version of the ACLU (the ACJU I believe) is supporting Trump, maybe his pro-Israel and pro-Orthodox backing has payed off, it's really hard to tell how many Jews have been swayed to his side and whether or not the left media is CNN with Wallstreet Jews- well not sure, well I wont give anything definitive but in my opinion it's either Wallstreet

Jews funded by the CCP to push up leftism or the CCP direct (likely the Jews though since the CCP nor CNN wouldnt want to dirty their hands through direct injection) and just the independent of Chinese money Jews or the portion that have wised up funding right wing news sources.

This is so stupid. Why do you think there's a lockdown then? What does the government gain from a lockdown? What would the government achieve by causing an extremely unpopular and economically catastrophic lockdown right before an election? The lockdown (and the economic slowdown caused by it) is a big reason for Trump's loss. Why would he ever cause a lockdown if it weren't because of the virus?

Or do you think it's not Trump who's calling the shots. You think it's the globalists, or the Jews, or the lizard people or what have you? Do you seriously believe that?

Not to mention that this is international! Virtually every country in the world is in a lockdown now. Do you actually think this is an international conspiracy? Do you think that the globalists designed this virus, released it in China and had it spread all across the Earth just so they could lockdown the world's governments? What would they gain from this? This is such a cockamamie and complex fantasy. Ever heard of Occam's razor?

You people who believe in this shit just like to live in a fantasy world. Do you think you live in Deus Ex? This isn't some organized nefarious masterplan, this is just human beings being stupid and letting things get out of control. Stop living in a little fantasy world and look at the real world around you clearly and you will see that it is much simpler than you want it to be.

Here's a red-pill: no one's in control, and the people at the top aren't any smarter than you or me. They don't know what they're doing and are making it up as they go along. They're not evil, just stupid. And that's scarier.

yes, but they'll try to push forward bullshit centralization and still fail
crash the economy in order to push for a plutocracy (which will lead to inevitable feudalism); this worked with the Great Depression that was caused by the Federal Reserve's unwillingness to back banks due to it being a slow and inefficient government organization as all are and which then lead to more bureacratization in order to solve the problem caused by such and not further helping with Keynes's BS theories

I like your theory, but its not mind bending enough - how about

> Jew thrive at shadow governance - but peace is horrible for that because law and order lifts the veil of who has the power.

> The jew thus profits most when war breaks out as attention is on the enemy, and the jew sells weapons to both sides.

> The USA created a big problem, as the jew can only count on war once every few decades as there is no one strong enough to actually provoke a war with the USA

> So the jews plan with China was to build the chinks up secretly so that once it was too late the USA would be forced into a war with a real threat.

> Ultimately the jew doesn't care who wins; China or USA - because the jew always wins when the attention is on an enemy

The chinks have been called the Jews of the orient. It's a common joke. Tell me this, who wins, 12 million Jews or 1.5 billion Asian discount jews? I'm going with the chinks. They also cannot be corrupted in the same way by racial politics and all that nonsense. However- Korea has succumb to such things so who knows? I don't think China is dumb enough to let that sort of jewy mind virus land on its shores though. What I'm saying OP is that it's yet to be seen who will outwit who.

>America isn't close to a fall.
A third of all the US dollars ever created were produced this past year alone. The Federal Reserve dropped any semblance of legitimacy by literally announcing QE Infinity. China is finally overtaking us in objective metrics of economic and military power like everyone could gradually see happening for decades now. Warren "Never Bet Against the US and investing in gold is stupid" Buffett invested $560 million in gold. Backlash against immigration and involvement in foreign nations brought about the Trump Administration which resulted in the loss of strategic positioning right when China was waiting for the opportunity to step in and take our place. The leftist media hated President Trump so much that it did the work of China for them and churned out constant negative spin coverage on how much America has failed to deal with COVID-19 while China's CCP has done the opposite and advertised how much they rose to the challenge and conquered it. The 'America First' agenda translated to fighting against other nations in trying to beat them to a vaccine and push for exclusive priority access while China did the obvious smarter move of greatly increasing assistance to other nations to demonstrate their stronger position.
I could probably type up a hundred posts more of this because of just how incredibly wrecked the US is now.

QE infinity might work out because there are enough neighbors of China who distrust China enough that they will buy out US debt as they don't want to see US fall, which means they lose the balance against China.

Nobody trust the Chinese vaccine. Everybody buys the western ones.

Other points are valid. Still it's only a relative decline, not a fall. The geography is unbeatable. The land and resource is unbeatable. The alliance system is unbeatable.

they could knock Bernie out of the primaries. the lockdown came right as the field started to narrow between bernie and biden. how would they have been able to manufacture consent for biden while bernie was drawing tens of thousands of people to his rallies? powell has even claimed that dominion voting was used to screw over bernie in 2016. republicans went along with it because they didn't want to have to go against bernie either.

Anonymous ID:Kt1cOOpT Tue 29 Dec 2020 03:39:47 No.299083125 🇷🇺 Report

Didn't read the whole thread.
Point is, jews are clearly preparing their golem for a war again, and only the unwillingness/inability of Anglos to acknowledge that they are the golem introduces any confusion here.

Jews are not interested in schizo boomer convoluted plots. Since the beginning of their project they have relied, with great success, on a set of time-tested and straightforward tactics described in their books: usury, supporting vices, invention of backdoored doctrines, capture of the institutions, consensus-building through punishment and exile for dissenting jews, libelling the capable enemy leaders through media, Esau gambit, terrorism, provoking wars, etc. They don't even change the specifics, hence the exact 'six million' number.

They did this with China too, twice. First stage was Opium wars, i.e. enforcement of opium addiction in China, done through their golem British Empire (which additionally gained another century of life despite usury weighing it down). Then chinks were beginning to recover, despite opium and colonialism, and they used Communism, thus Mao, famines, extermination of traditional culture. However, Zhou Enlai, Deng and other patriots preserved some crucial bits, and after Mao's death the few jews who remained influential were purged or allowed to die off. Now that China is acting in its own interest again, they drum up the UYGHUR HOLOCAUST and other rehashed anti-NatSoc charges. And useful idiots in the West (particularly Aussies) are going along with this, thinking they'll get to crush the "bugs" with their manly fists or whatever.

Nothing new to see here. I am not interested in schizo Anglo copes "woo, Goldman Sachs bought a stake in this one chink firm", either.

Reminder that this site is pozzed. Go to 8/16 or higher.

Jews don't have a goal to destroy the West. They want power over humanity, not some particular side losing relative to others. It's hubris to think they target only your group.

Also jews have never made the mistake of supporting an ascending power over a militarily dominant empire. USA is such an empire. They'll use the mutts to crush all competition and keep it pulverized, then they'll consume them from the inside, replacing all their elites (already 50%-70% done) and eventually all population except for subjugated slaves. This is the whole plan. There's no nuance to it.

Allowing "the West" to fall while chinks are still organised and financially powerful would be a terrible strategy. Anyone who interacted with chinks at all is aware that they are extremely racist and every chink in any position of authority acts like an Emperor. No way they'll accept servitude to jews; if they're in the position to turn the tables, they'll do so. Anyone who acts like this isn't the case is either brainwashed or a shill.

Patriotic mutts are the true bug people.

There's like 2.5k jews in all of China today, not a single one in any position of power. There's roughly 3000 times more of them in the US, half of those firmly upper-class or elite. It's not even worth discussing.

Is that tweet real? Intelligence is pattern recognition. So anyone who doesn't notice the biggest, most glaring pattern in the world, i.e. doesnt eventually awaken to the JQ, isnt a real intellectual.

It's an alliance between Israel and China. Israel controls the west, China the East, russia is isolated on two fronts. Laughably obvious to anyone who knows anything about the world-island theory of geopolitics which has predicated US strategic planning for over 60 years. Dugin goes into it at length, and you really should read him if you;re russian.

However, as we both know you're a wumao, how about you say something about what you would do do Xi's whore daughter's asshole in bed? No? There's a surprise.

Why can't it be both? I believe in God, but Dutch kikes look literally 100% like Neanderthals, most jews here have no Midde-Eastern admixture, they look like cavemen and women.

There may be some element of irrational hatred among the common jews, if only due to our extensive shared history; it's pretty clear that an average jew has way more bile to spit on Christianity than on Confucianism. But I don't think this is very useful for understanding the schemes of knowledgeable high-level actors like Goldman Sachs or Blinken. Jews were apathetic regarding Japanese, and even helped them defeat my country, at a point. They still made sure their golem crippled the Japs forever. They'll keep playing the JuDeO-ChRisTian VaLUeS card with their perfectly loyal puppets like Based Pompeo, so long as it stays advantageous.

There's no such alliance, only Anglo bug slaves to the Rothschilds and the rest of the world.

Also reminder that Mao was literally at cold war with his Prime Minister, and was widely reviled in upper echelons of CCP. Cultural Revolution was his desperate attempt to keep power from slipping away. Today there's no cult of Mao and his ardent followers have been purged. Xi's father was imprisoned on Mao's orders, Xi exiled to live in cave house. He has zero loyalty to Mao or his allies, his entire career is a long fuck-you to that era's leadership.

Westerners do not have any understanding of Chinese politics. Far from being obedient bugs, Chinks are one of the most unruly, treacherous and rebellious people in the world. That's why the chankoro insults are not biting. It's like calling Russians serfs in 2020.

honestly, I don't know that. But it would surprise me, considering how easily they've subverted the burgers and are controlling the. I imagine that and blackmail and similar shit should be far easier in a state of social credit points. But I really have no clue, maybe it's chinks jewing the chinks while jews are just watching from the sidelines.

Incorrect yet correct, the CCP/China is more or less an attempt by the jew remove the separation between old style politicians/world governments and their ownership of capital.
As in the far future, the jew would prefer being the owner of all capital along with being able to directly enforce its rule upon the state/populaces, as in communist-capitalism the owner is replaced or made into a state bureaucrat.
People cannot exactly tie two and two together for some reason, despite openly stating it.
So for the layman, its a future where the CEO of mcdonalds is also directly passing your laws and voting for what he wants with the CEO of microsoft, instead of both having to pay politicians/lobbies.
